December 30, 1977

Dear Harold,

Here is a listing of the latest batch of documents the AIB has sent me (#52-86), and a list of my clippings file on the FBI release (#1-50).

The AIB sent me the Washington Post story on your suit for the FBI documents. You are certainly entitled to a set, and I hope you get it. I also hope you and the AIB will be able to get together before the second half is released.

The points you made (as quoted in the Post) about the FBI's "media event" are certainly well taken. You might be interested in the enclosed Reuters story, which I just got - it is a pre-release 12/7/77 story which makes it clear that FBI people (probably including Gemberling, who was on TV at the time) had a lot to do with the confidence of some of the press that there were no "startling revelations."

Sincerely,

Paul
